BRIDGE DECK REPAIRS ON NH ROUTE 12A IN PLAINFIELD
WILL REQUIRE SINGLE LANE TRAFFIC ON BRIDGE OVER BEAVER BROOK

The New Hampshire Department of Transportation announces bridge deck repair work is scheduled to get underway on Wednesday, April 24, 2002 on the NH Route 12A bridge over Beaver Brook in Plainfield.

This maintenance work will require single lane traffic on the bridge for approximately seven weeks. Concrete barriers will be used to limit the bridge to one lane of traffic, which will be controlled by temporary traffic signals.

Motorists will be alerted to the lane closure by warning signs and are urged proceed with caution when driving through the work zone.
